

# UltraHeat L Series

Efficient Power for Heating Solutions

## BENEFITS OF INDUCTION HEATING ↙

- ☑ Maximized Productivity
- ☑ Improved Product Quality
- ☑ Precise Output Control
- ☑ Improved Repeatability
- ☑ Reduced Energy Consumption

**50-120kW / 10-150kHz**

## Advanced Power Supplies for Induction Heating Applications

These versatile and reliable power supplies are specifically designed to be utilized by Induction heating solution providers, offering low cost and reliable alternative to the costly or outdated custom power supplies used by many companies.

Available in models from 50 kW to 120kW, and frequency range from 10 to 150 kHz all are ideal for heat treating, bonding, annealing, hardening, brazing, melting, crystal growing, forging, forming, pipe heating, tempering, susceptor heating, shrink fitting and more...
