

UPT-S2

BENEFITS OF INDUCTION HEATING

- Maximized Productivity
- Improved Product Quality
- Precise Output Control
- Improved Repeatability
- Reduced Energy Consumption

1.2-5kW / 50-250kHz

Advanced Power Supplies for Induction Heating Applications

These versatile and reliable power supplies are specifically designed to be utilized by Induction heating solution providers, offering low cost and reliable alternative to the costly or outdated custom power supplies used by many companies.

Available in models from 1.2kW to 5kW, and frequency range from 50 to 250kHz all are ideal for heat treating, bonding, annealing, hardening, brazing, sealing, melting, soldering, tempering, susceptor heating and more...
